

WHAT IS CLAIMED IS

1. An adsorbent for endogenous cannabinoid comprising a water-insoluble material containing a substance whose solubility parameter δ is at most 12 ((cal/cm³)^{1/2}).
5
2. The adsorbent of Claim 1, wherein said water-insoluble material is a styrene-divinyl benzene copolymer.
3. The adsorbent of Claim 1, wherein said endogenous cannabinoid is anandamide.
10
4. The adsorbent of Claim 1, wherein said endogenous cannabinoid is 2-arachidonoylglycerol.
15
5. A process for adsorbing and removing endogenous cannabinoid comprising a step for contacting the adsorbent of Claim 1 with fluid containing endogenous cannabinoid.
6. The process of Claim 5, wherein the fluid is body fluid.
20
7. An adsorber for endogenous cannabinoid comprising a container having a fluid inlet, a fluid outlet and a means for preventing the adsorbent from escaping outside the container, wherein the
25 container is filled with the adsorbent of Claim 1.
